Whether its towing touring or just everyday driving, a Ineos Grenadier owner with an LRA tank fitted can fill up when it's cheap and drive on by laughing when the fuel goes through the up cycle every week!

The kit includes everything required to fit the new tank with minimal fuss. The tank is manufactured from 2mm aluminised steel, etch primed and finished in silver hammertone enamel paint.

All auxiliary tanks come with a quality LED switch gauge unit which shows the fuel level on the auxiliary tank and incorporates the switch to work the transfer pump.

- The combined fuel capacity is 148L (standard tank capacity is 90L)
- Driving range is in excess of 1500kms (based off 10.5L per 100km)
- The INEGRA-D requires the standard exhaust to be modified, parts are provided in the installation kit. The tank will fit under the original muffler shield.
