LONG RANGE AUXILIARY TANK

90L

2023+

180L

TOTAL FUEL CAPACITY

1400km

DRIVING RANGE *based on 12.6L/100km*

2mm

ALUMINISED STEEL

Whether its towing touring or just everyday driving, a Ineos Grenadier owner with an LRA tank fitted can fill up when it's cheap and drive on by laughing when the fuel goes through the up cycle every week!

The kit includes everything required to fit the new tank with minimal fuss. The tank is manufactured from 2mm aluminised steel, etch primed and finished in silver hammertone enamel paint.

All auxiliary tanks come with a quality LED switch gauge unit which shows the fuel level on the auxiliary tank and incorporates the switch to work the transfer pump.

- The combined fuel capacity is 180L (standard tank capacity is 90L)
- Driving range is in excess of 1400kms (based off 12.6L per 100km)
- The INEGRA-P requires the standard exhaust to be modified. We can supply a new muffler pipe & resonator pipe for an additional cost. Part numbers are:
 - EP-INEGRA-P-1 (muffler pipe)
 - EP-INEGRA-P-2 (resonator pipe)
- The tank will fit under the original muffler shield.
