

TO SUIT MITSUBISHI PAJERO NM - NX

LONG RANGE AUXILIARY TANK

81L

2000 - 2021

169L

TOTAL FUEL CAPACITY

1800km

DRIVING RANGE *based on 9.0L/100km*

2mm

ALUMINISED STEEL

Whether its towing touring or just everyday driving, a Mitsubishi Pajero owner with an LRA tank fitted can fill up when it's cheap and drive on by laughing when the fuel goes through the up cycle every week!

The kit includes everything required to fit the new tank with minimal fuss. The tank is constructed from 2mm aluminised steel, etch primed and finished in a hammertone silver enamel paint.

- The combined fuel capacity is 169L (standard tank capacity is 88L + 81L)
- Driving range is in excess of 1600kms (based off 9.0L per 100km)
- The MPNMRA81L retains the factory ground clearance.
- The MPNMRA81L will only suit models **without** rear air conditioning.
- The MPNMRA81L requires internal rear floor access for installation. If a draw system is fitted, LRA charges additional labour.
- The MPNMRA81L will **not** fit with a Pacemaker King Brown exhaust system.

FEATURES

- 3 year Australia wide warranty on the tank
- 1 Year Australia Wide Warranty on Parts
- Full Internal Baffling
- Excellent Ground Clearance
- 2mm T125CQ Aluminised Steel Construction
- Original Vehicle Emission Control System Retained

All auxiliary tanks come with a quality LED switch gauge unit which shows the fuel level on the auxiliary tank and incorporates the switch to work the transfer pump.
