

**TO SUIT TOYOTA LANDCRUISER VDJ76**

## LONG RANGE AUXILIARY TANK

# 85L

08/2012 - 2024

### 175L

TOTAL FUEL CAPACITY

### 1450km

DRIVING RANGE \*based on 11.9L/100km\*

### 2mm

ALUMINISED STEEL

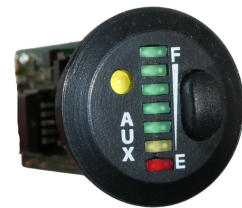

Whether its towing touring or just everyday driving, a Toyota 76 Series owner with an LRA tank fitted can fill up when it's cheap and drive on by laughing when the fuel goes through the up cycle every week!

The kit includes everything required to fit the new tank with minimal fuss. The tank is constructed from 2mm aluminised steel, etch primed and finished in a hammertone silver enamel paint.

- The combined fuel capacity is 175L (standard tank capacity is 90L)
- Driving range is in excess of 1450kms (based off 11.9L per 100km)
- The standard exhaust requires modification, this includes a muffler change. This can be supplied for an additional cost, part number is #TLC76CAEM. It will suit the Torqit 3.5" DPF-Back exhaust #HS8183SS & 3.5" Turbo-Back Exhaust with small mod to rear mount required #HS8188SS
- The TLC76CA will suit the V8 **only**. However, if you have the V8 Facelift model, you will require #TLC76CA2.8
- The TLC76CA will suit from August 2012 onwards. Pre August 2012, you will require #TLC76CA0712.
- The TLC76CA will **not** work with the ARB replacement tank.

## FEATURES

- 3 year Australia wide warranty on the tank
- 1 Year Australia Wide Warranty on Parts
- Full Internal Baffling
- Excellent Ground Clearance
- 2mm T125CQ Aluminised Steel Construction
- Original Vehicle Emission Control System Retained

All auxiliary tanks come with a quality LED switch gauge unit which shows the fuel level on the auxiliary tank and incorporates the switch to work the transfer pump.
