Whether its towing touring or just everyday driving, a Toyota Landcruiser owner with an LRA tank fitted can fill up when it's cheap and drive on by laughing when the fuel goes through the up cycle every week!

The kit includes everything required to fit the new tank with minimal fuss. The tank is constructed from 2mm aluminised steel, etch primed and finished in a hammertone silver enamel paint.

- The combined fuel capacity is 220L (standard tank capacity is 130L)
- Driving range is in excess of 2050kms (based off 10.7L per 100km)

- The TLC79SCA will **not** fit with the JMACX coil conversion or the Superior Engineering coil conversion.
- The TLC79SCA suits from October 2016 onwards with the factory 130L fuel tank.
